Something to add to our agenda. Obviously, I share Shelly's concerns. We don't have any treatment providers available in our community . . .

Here is the bill regarding chemical dependency assessment and treatment. I've copied my comments to the group so you could see my concerns as well.

My comments to Chad, Mike and Pete and Tom:

This bill would be bad for our juvenile court. We have our own in-house drug and alcohol unit that does our assessments for drug court and CDDA. Once in drug court or CDDA they provide treatment. Outpatient services for youth is very limited in our county.

How do we want to proceed with this? Is SCJA Leg Committee aware?

Thank you for bringing this to our attention, Chad.

Shelly

I have concerns about this also. What if there is a personal conflict with a provider? Where is the client to go then? Limited providers, especially in small communities or miles to travel which can't happen. Drug Courts may use a provider for assessment and treatment....etc. There was a similar issue with SSODA treatment but one can only use what is available for an assessment and then treatment. Treatment providers need to get involved in this bill as I would think they would have lots of concerns also. Pete

**Subject:** Emailing: 1072.pdf

This is the bill referenced in the last email. Thanks, Chad
